HISTORY and PHILOSOPHY

Over half a Century ago in 1952 Italo Frison started **SBF** in a small workshop he made a bumper car using just a hammer, steel and a lot of patience. Kiddie ride vehicles and small ride pavillions were what he built next. **S.B.F. srl** was organized by the founder of **SBF** in 1952 and has grown slowly to become Europe's largest amusement ride manufacturer.

The **SBF-VISA GROUP** is currently an industry leader. We are innovators, creators and manufacturers of an extraordinary product line... family thrill rides, standard rides, children rides, custom attractions and rides, gravity rides, all second to none in quality and performance are designed, engineered and manufactured in our family owned and operate facilities for worldwide appeal in a variety of venues on many Continents.

The **SBF-VISA** rides can be delivered as park model or trailer mounted units with few exceptions. The **SBF-VISA** product line is so diverse that regardless if you are searching for one ride or many to begin a complete new park or entertainment center we can provide what is needed and desired at an affordable price.

After sales service is an essential element of every delivery **SBF-VISA** makes, we want your repeat business.

The **SBF-VISA** in-house design, engineering and technical departments provide the imagination and expertise to accomodate your needs for any theme or specific requirements.

The **SBF-VISA** production departments manufacture the ride components to the highest international norms and standards, such as but not limited to DIN, TUV, ASTM in order to insure quality built and safe reliable rides which preform with minimum down time.

DIRECTIONS TO OUR FACTORIES & SHOWROOM

Casale di Scodosia (SBF) and Montagnana (VISA) are located in the North East of Italy, very close to main highways which are an easy drive from any of the following airports:

VERONA (45 Km-50 minutes), **VENEZIA** (90 Km-1½ hour), **BOLOGNA** (90 Km-1¼ hour), **MILANO** (250 Km-3 hours).

DEPARTMENTS

Technical Department

The **SBF-VISA Group** takes great pride in developing your rides.

The design, engineering and creative process as well as the steel fabrication and fiberglass work is all done in our own facilities where the quality control is supervised continuously.

We assemble and test the rides at our factory before properly packing and loading them for transport to you where we provide factory trained technicians for supervision of installation and training your personnel in maintenance and operational procedures.

Satisfied clients is our objective, you are the best sales team we can have!
