WATER ACTION

WATER ACTION

Each car is equipped with 3 electrical cannons shooting water through a luminous button.

The ride is equipped with 6 big vehicles, water cannons, lights and fittings and it's decorated in a very attractive way. Vehicles are big enough to accommodate both kiddies and adults, so that the attraction can be enjoyed by whole family.

The center of the ride is made of 36 interactive windows placed on 6 decorated panels. Passengers have to shoot luminous flames inside the windows and the better they shoot the Higher are going the LED lights placed among the center panels (see picture). Passengers can see therefore their own performance.

Each vehicle can accommodate 3 persons facing outside, as you can see from the picture.
